SUMMARY

Aspiring Data Analyst with hands-on experience in data cleaning, exploratory data analysis, and dashboard development. Strong foundation in SQL, Excel, and Power BI, with working knowledge of Python and Machine Learning fundamentals. Analytical and detail-oriented, with a passion for turning raw data into clear, actionable business insights.

EXPERIENCE

Data Analytics Intern | Elevat

Apr 2026 – May 2026

- Performed data cleaning, preprocessing, and exploratory data analysis using Python and SQL.
- Developed customer churn prediction models to identify customer retention trends.
- Created interactive dashboards using Power BI and Tableau to generate business insights.

AI & Cloud Computing Intern | SuprMentor

Feb 2026 – May 2026

- Developed machine learning and NLP-based solutions for real-world business problems. Built a customer churn prediction model achieving 80% accuracy, enabling early identification of at-risk customers for retention strategies.
- Applied AI and cloud computing concepts to support project development and deployment.

Data Analytics Intern | Novitech

Oct 2024 – Nov 2024

- Analyzing datasets using Python, SQL, and Excel to identify trends and patterns.
- Creating dashboards and visual reports using Power BI for data-driven decision-making. Supporting analytics projects through data visualization and insight generation.

EDUCATION

Sri Sairam College of Engineering

May 2026

B.E. Artificial Intelligence & Machine Learning
CGPA: 8.1

PROJECTS

- Customer Churn Prediction** — Developed a machine learning model achieving 87.4% accuracy to predict customer churn, analyzing 7,043 customer records to identify key retention drivers.
- Gold Price Prediction Model** — Built a machine learning regression model to forecast gold price trends using historical market data, performing data preprocessing, feature engineering, and model evaluation.
- AgriBot** — Developed an AI-powered soil health monitoring solution that analyzes sensor data to classify soil conditions and support agricultural decision-making.

KEY SKILLS

- | | | |
|-----------------|-------------------------|-----------------------|
| ▪ Python | ▪ Data Visualization | ▪ Problem Solving |
| ▪ SQL | ▪ Machine Learning | ▪ Communication |
| ▪ Data Analysis | ▪ Business Intelligence | ▪ Analytical Thinking |
